Remuneration Policy

The Board of Directors is responsible for determining and reviewing compensation arrangements for the Directors. The Board assesses the appropriateness of the nature and amount of remuneration of such officers on a periodic basis by reference to relevant employment conditions, with the overall objective of ensuring maximum stakeholder benefit from the retention of a high quality Board.

The Board acts as the Remuneration Committee and assesses the nature and amount of compensation of key management personnel.

All remuneration paid to key management personnel is expensed. Any options granted to key management personnel are valued using either the Black-Scholes or binomial option pricing models.

The Board policy is to remunerate Non-Executive Directors at market rates for time, commitment and responsibilities. The Board determines payments to the Non-Executive Directors and will review their remuneration annually, based on market practice, duties and accountability and to ensure their remuneration is competitive in attracting, retaining and motivating people with appropriate skills and experience. Independent external advice is sought where required.

The maximum amount of fees that can be paid to Non-Executive Directors is subject to approval by shareholders at the Annual General Meeting. Fees for Non-Executive Directors are currently fixed at up to $350,000 and are not linked to the performance of the Company. However, to align Directors' interests with shareholder interests, the Directors are encouraged to hold shares in the Company.

Performance Based Remuneration

No performance based amounts have been paid or determined to be paid to Directors at this stage of the Company's development.

Corporate Governance Statement

Overview

The Company's Board governs the business on behalf of shareholders as a whole with the prime objective of protecting and enhancing shareholder value. The Board is committed to, and ensures that the:-

(i) executive management runs the Company in accordance a high level of ethics and integrity;
(ii) Board and management complies with all applicable laws and regulations;
(iii) Company continually reviews the governance framework and practices to ensure it fulfils its corporate governance obligations.

The Board endorses the ASX Corporate Governance Principles and Recommendations ('ASX CGP') however, as a junior company, at this stage of the Company's corporate development, implementation of the ASX CGP is not practical in every instance given the modest size and scale of the Company operations.

During the year ended 30 June 2017, the Company considered the 3rd Edition of the ASX CGP. This Statement reports on the revised recommendations and outlines the main corporate governance practices employed by the Board. Where it has not adopted a particular recommendation, an explanation is provided.

This Corporate Governance Statement was approved by the Board on 30 August 2017 and is current as at that date in accordance with ASX Listing Rule 4.10.3. The Corporate Governance Statement will also be published on the Company's website at http://www.oakajeecorp.com.au/

1. Laying solid foundations for management and oversight

Role and Responsibility of Board and Management

The relationship between the Board and senior management is critical to the Company's long term success. The Board is responsible for the performance of the Company in both the short and longer term and seeks to balance sometimes competing objectives in the best interests of the Company as a whole. The key aims of the Board are to enhance the interests of shareholders and other key stakeholders and to ensure the Company is properly managed.

Day to day management of the Company's affairs and the implementation of the corporate strategy and policy initiatives are formally delegated by the Board to the Chief Executive Officer and senior management.

The responsibilities of the Board as a whole, the Chairman and individual Directors are set out in the Company's Board Charter and are consistent with ASX CGP 1. A copy of the Board Charter is available in the Corporate Governance section of the Company's website.

Before appointing a new Director, the Company will undertake appropriate checks such as a character reference, police clearance certificate, bankruptcy check and any other check it deems appropriate. Where a Director is to be re-elected or a candidate is put up for election to shareholders, all material information will be provided to shareholders for consideration.

To ensure that Directors clearly understand the requirements of their role, formal letters of appointment are provided to them. The content of the appointment letter is consistent with that set out in ASX CGP 1.

To ensure that Executive Directors clearly understand the requirements of the role, service contracts and formal job descriptions are provided to them, the content of which is consistent with ASX CGP1.

Access to information

Directors may access all relevant information required to discharge their duties in addition to information provided in Board papers and regular presentations delivered by executive management on business performance and issues. With the approval of their Chairman, Directors may seek independent professional advice, as required, at the Company's expense.

Corporate Governance Statement

Company Secretary

The Company Secretary is accountable directly to the Board, through the Chairman, on all matters to do with the proper functioning of the Board. The role of the Company Secretary is consistent with ASX CGP1.

Diversity

The Board considers that due to the size of the Company, formally documenting the policy concerning gender diversity and the setting of measurable diversity objectives is not appropriate. The Company has only one full time employee and utilises external consultants and contractors to complement the full time workforce as and when required.

The Company provides equal employment opportunities to men and women at all times. Measurable objectives will be considered by the Board when the Company becomes of a size that warrants such objectives. Once established, the Board will review progress against any objectives identified on an annual basis.

Performance Evaluation

The Chairman and/or the Managing Director are responsible for reviewing the performance of each individual Director at least once every calendar year with reference to the terms of their employment contract. A Director is nominated to review the individual performance of the Chairman and/or the Managing Director and meets privately with him to discuss this assessment. A formal performance evaluation was not undertaken in the 2017 financial year.

2. Structure of the Board

Board composition

The Directors determine the composition and size of the Board in accordance with the Company's Constitution. The Constitution empowers the Board to set upper and lower limits with the number of Directors not permitted to be less than three. There are currently three Directors appointed to the Board and their skills and experience, qualifications, term of office and independence status is set out in the Directors' Report.

Nominations committee

Due to the Company's size and scale, the Board has not established a sub-committee to undertake the responsibilities normally undertaken by a Nomination Committee. The Board is charged to undertake the responsibilities normally undertaken by a Nomination Committee.

Board succession/Board skills matrix

The Board has adopted a Board skills matrix which identifies its collective mix of skills and diversity. The current composition of the Board is regarded as balanced with a complementary range of skills, independence, diversity and experience to enable it to discharge its duties and responsibilities effectively.

Should the Company be in the position where it believes that it or a new Director does not have the requisite skills and experience, the Company will ensure that appropriate training or development is provided to ensure that the current or new Director has sufficient knowledge, skills and an understanding of their responsibilities.

Director independence

Based on the definition of independence published in ASX CGP 2, only one Director is considered independent. Mr Jones and Mr Thomas are not independent as they are substantial security holders of the Company and/or act in an executive capacity with the Company. Mr Watson is considered independent.

Independent Decision Making

The majority of the Board is not independent and the Company recognises that this is a departure from ASX CGP 2. All Directors bring to the Board the requisite skills which are complementary to those of the other Directors and enable them to adequately discharge their responsibilities and bring independent judgments to bear on their decisions.

Corporate Governance Statement

Materiality thresholds used to assess Director independence have not as yet been established however the Board considers a Director to be independent where he or she is not a member of management and is free of any business or other relationship that could materially interfere with, or could reasonably be perceived to materially interfere with, the Director's ability to act in the best interests of the Company.

The Board believes that the interests of the shareholders are best served by the current composition of the Board which is regarded as balanced with a complementary range of skills, diversity and experience as detailed in the Directors' Report.

The following measures are in place to ensure the decision making process of the Board is subject to independent judgments:-

- A standard item on each Board Meeting agenda requires Directors to focus on and declare any conflicts of interest in addition to those already declared;
- Directors are permitted to seek the advice of independent experts at the Company's expense, subject to the approval of the Chairman;
- All Directors must act all times in the interest of the Company; and
- Directors meet as required independently of executive management.

Adoption of these measures ensures that the interests of shareholders, as a whole, are pursued and not jeopardised by a lack of independence.

Inducting new Directors

New Non-Executive Directors will be provided with a pack of information and documents relating to the Company including the Constitution, financial statements, recent Board papers and the various Board policies and charters.

3. Ethical and Responsible Decision Making

Code of Conduct

A Code of Conduct Policy is in place to promote ethical and responsible practices and standards for Directors, employees and consultants of the Company to discharge their responsibilities. This Policy reflects the Directors' and key officers' intention to ensure that their duties and responsibilities to the Company are performed with the utmost integrity. A copy of the Code of Conduct policy is available to all employees and is also available in the Corporate Governance section of the Company's website. The terms are consistent with ASX CGP 3.

4. Integrity of corporate reporting

Audit Committee

Due to the size and scale of the Company, during the year the Board has not established a sub-committee to undertake the responsibilities normally undertaken by an Audit Committee.

The full Board undertakes all Audit Committee responsibilities in accordance with its Audit Committee Charter located on the Company's website. The responsibilities include the following:-

- Reviewing and approving statutory financial reports and all other financial information distributed externally;
- Monitoring the effective operation of the risk management and compliance framework;
- Reviewing the effectiveness of the Company's internal control environment including compliance with applicable laws and regulations;
- The nomination of the external auditors and the review of the adequacy of the existing external audit arrangements; and
- Considering whether non audit services provided by the external auditor are consistent with maintaining the external auditor's independence.

The Company will give consideration at an appropriate time in the Company's development, for the creation of an Audit Committee.

Corporate Governance Statement

CEO/CFO Sign Off

Before the Board approves the Company's financial statements it receives a declaration from its CEO and CFO in accordance with ASX CGP 4.
External Auditor

The lead audit partner responsible for the Company's external audit is required to attend each Annual General Meeting and to be available to answer shareholder questions about the conduct of the audit and the preparation and content of the auditor's report.

5. Timely and balanced disclosure

Continuous Disclosure Policy

The Company has a written policy on information disclosure that focuses on continuous disclosure of any information concerning the Company that a reasonable person would expect to have a material effect on the price of the Company's securities.

A copy of the Continuous Disclosure Policy is located in the Corporate Governance section of the Company's website and the terms are consistent with ASX CGP 5.

The Company Secretary has been nominated as the person responsible for communications with the Australia Securities Exchange (ASX). This role includes responsibility for ensuring compliance with the continuous disclosure requirements in the ASX Listing Rules and overseeing and co-ordinating information disclosure to the ASX, analysts, brokers, shareholders, the media and the public.

6. Rights of Security holders

Website

The Company maintains a website at http://www.oakajeecorp.com.au/.The website contains information consistent with ASX CGP 6.

Communication

The Company's Shareholder Communications Policy promotes effective communication with the Company's shareholders and encourages shareholder participation at general meetings. A copy of this Policy, which deals with communication through the ASX, the Share Registry, shareholder meetings and the annual report, may be found in the Corporate Governance section of the Company's website. All of the Company's announcements to the market may also be accessed through the Company's website. The Company's annual reports are posted on the Company's website.

Shareholders are provided with the opportunity to question the Board concerning the operation of the Company at the annual general meeting. They are also afforded the opportunity to question the Company's auditors at that meeting concerning matters related to the audit of the Company's financial statements.

Shareholders are also encouraged and given the opportunity to receive electronic communications from, and send electronic communications to, the Company and its share registry.

7. Recognising and Managing Risk

Risk Committee

Due to the size and scale of the Company, during the year the Board has not established a sub-committee to undertake the responsibilities normally undertaken by a Risk Committee.

The Board is responsible for ensuring that risks, as well as opportunities are identified on a timely basis and receive an appropriate and measured response, recognising however that no cost effective internal control system will preclude all errors and irregularities.

Corporate Governance Statement

The Company currently is not subject to any material exposure to environmental and social sustainability risks. The principal areas of risk for the Company are in:-

- occupational health and safety and work related safety risks; and
- financial risk in the areas of maintaining sufficient funding for the continuation of operations and risks related to fraud, misappropriation and errors.

The Board will review the effectiveness of implementation of the risk management system and internal control system at least annually. When reviewing risk management policies and internal control system the Board should take into account the Company's legal obligations and should also consider the reasonable expectations of the Company's stakeholders, including security holders, employees, customers, suppliers, creditors, consumers and the community.

Internal Audit

The Company does not currently have an internal audit function. Once the Company is at a size and scale that warrants an internal auditor or nears production status, the Board will be responsible for the appointment and overseeing of the internal auditor.

8. Remunerating Fairly and Responsibly

Remuneration and Nominations Committee

Due to the size and scale of the Company, during the year the Board has not established a sub-committee to undertake the responsibilities normally undertaken by a Remuneration & Nomination Committee. The Company will give consideration at an appropriate time in the Company's development, for the creation of sub-committees.

The full Board approves all management remuneration including the allocation of options (if any) and involves itself in the nomination, selection and retirement of Directors. No Director may be involved in setting their own remuneration or terms and conditions and in such a case relevant Directors are required to be absent from the full Board discussion.

The Board seeks to ensure that collectively its membership represents an appropriate balance between Directors with experience and knowledge of the Company and Directors with an external or fresh perspective. It shall review the range of expertise of its members on a regular basis and seeks to ensure that it has operational and technical expertise relevant to the operation of the Company.

Directors are re-elected, nominated and appointed to the Board in accordance with the Board's policy on these matters set out in the Remuneration Committee Charter, the Company's Constitution and ASX Listing Rules. In considering appointments to the Board, the extent to which the skills and experience of potential candidates complement those of the Directors in office is considered.

The Company's remuneration philosophy, objectives and arrangements are detailed in the Remuneration Report which forms part of the Directors' Report.

Remuneration of Non-Executive Directors

The annual total of fees to Non-Executive Directors is set by the Company's shareholders and allocated as Directors' Fees by the Board on the basis of the roles undertaken by the Directors. Full details of Directors' remuneration appear in the Remuneration Report. These fees are inclusive of statutory superannuation contributions. No retirement benefits are paid to Non-Executive Directors and no equity-based remuneration scheme exists for them.

Remuneration of Executive Management

Remuneration packages for Executive management are generally set to be competitive so as to both retain executives and attract experienced executives to the Company.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2017

1. Statement of Significant Accounting Policies

The following is a summary of the material accounting policies adopted by the Company in the preparation of the financial report. The accounting policies have been consistently applied to all the years presented, unless otherwise stated.

a) Basis of Preparation

The financial report is a general purpose financial report, which has been prepared in accordance with the requirements of the Corporations Act 2001, applicable Australian Accounting Standards, Accounting Interpretations and other mandatory professional reporting requirements. The financial report has been prepared on a historical cost basis, except for available-for-sale financial assets which have been measured at fair value, and is presented in Australian dollars.

Oakajee Corporation Limited is a Company limited by shares, incorporated and domiciled in Australia, whose shares commenced public trading on the Australian Securities Exchange on 11 June 2008. The Company was registered on 11 December 2006.

b) Statement of Compliance

The financial report of Oakajee Corporation Limited (the “Company” or “Oakajee”) for the year ended 30 June 2017 was authorised for issue in accordance with a resolution of the Directors on 30 August 2017.

The financial report complies with Australian Accounting Standards, which include Australian equivalents to International Financial Reporting Standards (“AIFRS”). Compliance with AIFRS ensures that the financial report, comprising the financial statements and notes thereto, complies with International Financial Reporting Standards (“IFRS”).

c) New, revised or amending Accounting Standards and Interpretations adopted

In the year ended 30 June 2017, the Directors have reviewed all of the new and revised Standards and Interpretations issued by the AASB that are relevant to the Group for the current annual reporting period.

It has been determined by the Directors that there is no impact, material or otherwise, of the new and revised Standards and Interpretations on its business and, therefore, no change is necessary to Group accounting policies.

The Directors have also reviewed all new Standards and Interpretations that have been issued but are not yet effective for the year ended 30 June 2017. As a result of this review, the Directors have determined that there is no impact, material or otherwise, of the new and revised Standards and Interpretations on its business and, therefore, no change necessary to Group accounting policies.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2017

d) Significant accounting judgements, estimates and assumptions

The application of accounting policies requires the use of judgements, estimates and assumptions about carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions are recognised in the period in which the estimate is revised if it affects only that period, or in the period of the revision and future periods of the revision affect both current and future periods.

Impairment of available-for-sale financial assets

The Company follows the guidance of AASB 139 Financial Instruments: Recognition and Measurement to determine when an available-for-sale financial asset is impaired. This determination requires significant judgement. In making this judgement, the Company evaluates, among other factors, the duration and extent to which the fair value of an investment is less than its cost and the financial health of and short-term business outlook for the investee, including factors such as industry and sector performance, changes in technology and operational and financing cash flows.

A net impairment expense of $76,013 (2016: $225,944) has been recognised during the year against the Company's available-for-sale financial assets as these investments have experienced a significant or prolonged decline in fair value below their cost.

e) Going Concern

The financial report has been prepared on the basis of accounting principles applicable to a going concern which assumes the commercial realisation of the future potential of the Company's assets and the discharge of its liabilities in the normal course of business.

As at 30 June 2017, the Company has cash and cash equivalents of $548,723 and net operating cash outflows of $304,246 for the year ended on that date. Notwithstanding this, the accounts have been prepared on a going concern basis. The Company has available-for-sale financial assets with a market value of $1,610,000 at 30 June 2017. These available-for-sale financial assets represent investments in listed companies which are traded on ASX.

The Company has the ability to sell these investments in a liquid market as and when the need for additional working capital arises. Listed shares were disposed of during the year ended 30 June 2017 for total proceeds of $262,105. Further tranches will be sold if and when the need arises.

Accordingly, the Directors believe that Oakajee Corporation Limited has access to sufficient funding to enable it to continue as a going concern and that it is appropriate to adopt that basis of accounting in the financial report.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2017

f) Revenue Recognition

Revenues are recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue can be recognised:

(i) Interest income

Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

(ii) Dividends

Dividends are recognised as revenue when the Company's right to receive the payment is established.

g) Leases

Leases are classified at their inception as either operating or finance leases based on the economic substance of the agreement so as to reflect the risks and benefits incidental to ownership.

Operating leases

The minimum lease payments of operating leases, where the lessor effectively retains substantially all the risks and benefits of the leased item, are charged as expenses in the periods in which they are incurred.

h) Cash and cash equivalents

Cash comprises cash at bank and on hand. Cash equivalents are short term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

For the purposes of the statement of cash flows, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts.

i) Trade and other receivables

Trade receivables are measured on initial recognition at fair value and are subsequently measured at amortised cost using the effective interest rate method, less an allowance for impairment. Trade receivables are generally due for settlement within periods ranging from 15 days to 30 days.

Impairment of trade receivables is continually reviewed and those that are considered to be uncollectible are written off by reducing the carrying amount directly. An allowance account is used when there is objective evidence that the Company will not be able to collect all amounts due according to the original contractual terms. Factors considered by the Company in making this determination include known significant financial difficulties of the debtor, review of financial information and significant delinquency in making contractual payments to the Company.

i) Trade and other receivables (continued)

The impairment allowance is set equal to the difference between the carrying amount of the receivable and the present value of estimated future cash flows, discounted at the original effective interest rate. Where receivables are short-term discounting is not applied in determining the allowance. The amount of the impairment loss is recognised in the statement of comprehensive income within other expenses. When a trade receivable for which an impairment allowance had been recognised becomes uncollectible in a subsequent period, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against other expenses in the statement of comprehensive income.

j) Income tax

The income tax expense or benefit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary difference and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the Company operates and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation.

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the balance date.

Deferred income tax is provided on all temporary differences at the balance date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred income tax liabilities are recognised for all taxable temporary differences except:

- when the deferred income tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and that, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; or
- when the taxable temporary difference is associated with investments in subsidiaries, associates or interests in joint ventures, and the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred income tax assets are recognised for all deductible temporary differences, carry-forward of unused tax assets and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry-forward of unused tax credits and unused tax losses can be utilised, except:

- when the deferred income tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; or
- when the deductible temporary difference is associated with investments in subsidiaries, associates or interests in joint ventures, in which case a deferred tax assets is only recognised to the extent that it is probable that the temporary difference will revise in the foreseeable future and taxable profit will be available against which the temporary difference can be utilised.

The carrying amount of deferred income tax assets is reviewed at each balance date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised. Unrecognised deferred income tax assets are reassessed at each balance date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance date. Income taxes relating to items recognised directly in equity are recognised in equity and not in profit or loss.

k) Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred on a purchase of goods and services is not recoverable from the Australian Tax Office. In these circumstances, the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense.

Receivables and payables in the statement of financial position are shown inclusive of GST. The net amount of GST recoverable or payable is included as a current asset or current liability in the statement of financial position. Cash flows are included in the statement of cash flows on a gross basis. The GST components of cash flows arising from investing and financing activities which are recoverable or payable are classified as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the taxation authority.

l) Property plant and equipment

Property, plant and equipment is carried at cost less any accumulated depreciation and any accumulated impairment losses.

Depreciation
Depreciation is calculated on a straight line basis over the estimated useful life of the asset as follows:

Class of fixed asset	Depreciation rate
Office Furniture	20%
Computer Software and Equipment	25%

Impairment
The carrying values of plant and equipment are reviewed for impairment at each reporting date, with recoverable amount being estimated when events or changes in circumstances indicate that the carrying value may be impaired.

The recoverable amount of plant and equipment is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

For an asset that does not generate largely independent cash inflows, recoverable amount is determined for the cash-generating unit to which the asset belongs, unless the asset's value in use can be estimated to be close to its fair value.

An impairment exists when the carrying value of an asset or cash-generating units exceeds its estimated recoverable amount. The asset or cash-generating unit is then written down to its recoverable amount.

Derecognition and disposal
An item of property, plant and equipment is derecognised upon disposal or when no further future economic benefits are expected from its use or disposal.

Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal and the carrying amount of the asset) is included in the profit and loss in the year the asset is derecognised.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2017

m) Financial assets

Financial assets within the scope of AASB 139 Financial Instruments: Recognition and Measurement are classified as either financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments, or available-for-sale investments, as appropriate. When financial assets are recognised initially, they are measured at fair value, plus, in the case of investments not at fair value through profit or loss, directly attributable transaction costs. The Company determines the classification of its financial assets after initial recognition and, when allowed and appropriate, re-evaluates this designation at each financial year-end. All regular way purchases and sales of financial assets are recognised on the trade date i.e. the date that the Company commits to purchase the asset. Regular way purchases or sales are purchases or sales of financial assets under contracts that require delivery of the assets within the period established generally by regulation or convention in the marketplace.

(i) Financial assets at fair value through profit or loss

Financial assets classified as held for trading are included in the category 'financial assets at fair value through profit or loss'. Financial assets are classified as held for trading if they are acquired for the purpose of selling in the near term. Derivatives are also classified as held for trading unless they are designated as effective hedging instruments. Gains or losses on investments held for trading are recognised in profit or loss.

(ii) Held-to-maturity investments

Non-derivative financial assets with fixed or determinable payments and fixed maturity are classified as held-to-maturity when the Company has the positive intention and ability to hold to maturity. Investments intended to be held for an undefined period are not included in this classification. Investments that are intended to be held-to-maturity, such as bonds, are subsequently measured at amortised cost. This cost is computed as the amount initially recognised minus principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between the initially recognised amount and the maturity amount. This calculation includes all fees and points paid or received between parties to the contract that are an integral part of the effective interest rate, transaction costs and all other premiums and discounts. For investments carried at amortised cost, gains and losses are recognised in profit or loss when the investments are derecognised or impaired, as well as through the amortisation process.

(iii) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are carried at amortised cost using the effective interest method. Gains and losses are recognised in profit or loss when the loans and receivables are derecognised or impaired, as well as through the amortisation process.

(iv) Available-for-sale investments

Available-for-sale investments are those non-derivative financial assets that are designated as available-for-sale or are not classified as any of the three preceding categories. After initial recognition available-for sale investments are measured at fair value with gains or losses being recognised as a separate component of equity until the investment is derecognised or until the investment is determined to be impaired, at which time the cumulative gain or loss previously reported in equity is recognised in profit or loss.

The fair value of investments that are actively traded in organised financial markets is determined by reference to quoted market bid prices at the close of business on the balance date. For investments with no active market, fair value is determined using valuation techniques. Such techniques include using recent arm's length market transactions; reference to the current market value of another instrument that is substantially the same; discounted cash flow analysis and option pricing models.

n) De-recognition of financial assets and financial liabilities

(i) Financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is derecognised when:

- the rights to receive cash flows from the asset have expired;
- the Company retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a 'pass-through' arrangement; or

n) De-recognition of financial assets and financial liabilities (continued)

- the Company has transferred its rights to receive cash flows from the asset and either:

(a) has transferred substantially all the risks and rewards of the asset, or
(b) has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognised to the extent of the Company's continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration received that the Company could be required to repay.

(ii) Financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a de-recognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in profit or loss.

o) Impairment of financial assets

(i) Financial assets carried at amortised cost

If there is objective evidence that an impairment loss on loans and receivables carried at amortised cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the presented value of the estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate (i.e. the effective interest rate computed at initial recognition). The carrying amount of the asset is reduced either directly or through use of an allowance account. The amount of the loss is recognised in profit or loss.

The Company first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, and individually or collectively for financial assets that are not individually significant. If it is determined that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, the asset is included in a Company of financial assets with similar credit risk characteristics and that Company of financial assets is collectively assessed for impairment. Assets that are individually assessed for impairment and for which an impairment loss is or continues to be recognised are not included in a collective assessment of impairment.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed. Any subsequent reversal of an impairment loss is recognised in profit or loss, to the extent that the carrying value of the asset does not exceed its amortised cost at the reversal date.

(ii) Available-for-sale investments

If there is objective evidence that an available-for-sale investment is impaired, an amount comprising the difference between its cost (net of any principal repayment and amortisation) and is current fair value, less any impairment loss previously recognised in profit or loss, is transferred from equity to the statement of comprehensive income. Reversals of impairment losses for equity instruments classified as available-for-sale are not recognised in profit. Reversals of impairment losses for debt instruments are reversed through profit or loss if the increase in an instrument's fair value can be objectively related to an event occurring after the impairment loss was recognised in profit or loss.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2017

p) Trade and other payables

Trade payables and other payables are carried at amortised cost and represent liabilities for goods and services provided to the Company prior to the end of the financial year that are unpaid and arise when the Company becomes obliged to make future payments in respect of the purchase of these goods and services. Trade and other payables are presented as current liabilities unless payment is not due within 12 months.

q) Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not recognised for future operating losses.

When the Company expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the statement of comprehensive income net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as an interest expense.

r) Employee leave benefits

Wages and salaries, annual leave and sick leave

Liabilities for wages and salaries, including non-monetary benefits and accumulating sick leave expected to be settled within 12 months of the reporting date are recognised in other payables in respect of employees' services up to the reporting date and are measured at the amounts expected to be paid when the liabilities are settled. Liabilities for non-accumulating sick leave are recognised when the leave is taken and measured at the rates paid or payable.

s) Issued capital

Ordinary share capital is recognised at the fair value of the consideration received by the Company. Any transaction costs arising on the issue of ordinary shares are shown in equity as a deduction, net of tax, from the proceeds received.

t) Earnings or loss per share

Basic earnings or loss per share is calculated as net profit or loss after income tax attributable to members of the Company, adjusted to exclude any costs of servicing equity (other than dividends) and preference share dividends, divided by the weighted average number of ordinary shares outstanding, adjusted for any bonus elements in ordinary shares issued during the year.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2017

t) Earnings or loss per share (continued)

Diluted earnings or loss per share is calculated as net profit or loss attributable to members of the Company, adjusted for:

- costs of servicing equity (other than dividends) and preference share dividends;
- the after tax effect of dividends and interest associated with dilutive potential ordinary shares that have been recognised as expenses; and

other non-discretionary changes in revenues or expenses during the period that would result from the dilution of potential ordinary shares; divided by the weighted average number of ordinary shares and dilutive potential ordinary shares, adjusted for any bonus element.

u) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors of Oakajee Corporation Limited.

v) Comparative figures

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

4. Income tax

	2017 $	2016 $
a) Income tax (benefit)/expense		
The prima facie income tax (benefit)/expense on pre-tax accounting (loss)/profit from operations reconciles to the income tax (benefit)/expense in the financial statements as follows:		
Accounting loss before tax from continuing operations	(237,103)	(557,789)
Income tax benefit calculated at 27.5% (30% in prior year).	(65,203)	(167,337)
Non-deductible expenses	250	15,881
Non-assessable income	(39,904)	-
Recognition of previously unrecognised temporary differences	(20,453)	(20,325)
Deferred tax assets and liabilities not recognised	127,186	129,781
Income tax not recognised in equity	(1,876)	-
Income tax benefit reported in the statement of comprehensive income	-	42,000

The tax rate used in the above reconciliation is the corporate tax rate at 27.5% payable by Australian corporate entities on taxable profits under Australian tax laws. The tax rate used in the previous reporting period was 30%.

b) Income tax charged/(credited) directly to equity	2017 $	2016 $

Accrued expenses and liabilities	-	(22,313)	-	22,313	-
	-	(171,781)	42,000	129,781	-

The Company has tax losses arising in Australia, the tax effect of these losses is $524,977 (2016: $482,750). The losses are available indefinitely for offset against future taxable profits of the companies in which the losses arose.

The deductible temporary differences and tax losses do not expire under current tax legislation. Deferred tax assets have not been recognised in respect of these items because it is not probable that future taxable profit will be available against which the Company can utilise the benefits thereof.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2017

16. Segment information

AASB 8 *Operating Segments* requires operating segments to be identified on the basis of internal reports about components of the Company that are reviewed by the chief operating decision maker in order to allocate resources to the segment and assess its performance.

The chief operating decision maker for Oakajee Corporation Limited reviews internal reports prepared as financial statements and strategic decisions of the Company are determined upon analysis of these internal reports. During the period, the Company operated predominantly in one segment being the investment sector in Australia. Accordingly, under the "management approach" outlined, only one operating segment has been identified and no further disclosure is required in the notes to the financial statements.

17. Related party disclosures

Transactions with Key Management Personnel

Refer to Note 13 for details of transactions with key management personnel.

Other than disclosed in Note 13, there were no other related party transactions during the financial year.

18. Commitments and Contingencies

Capital Commitments
The Company does not have any capital commitments as at balance date.

Operating lease – Office Premises
The Company holds an operating lease with no fixed term for office premises which commenced on 1 August 2012. Annual rent for the lease for the year ended 30 June 2017 was $20,796 (excluding GST).

19. Financial instruments disclosure

(a) Capital Risk Management

Management's policy is to control the capital of the Company to ensure that the Company can fund its operations and continue as a going concern, with the intention of providing shareholders with adequate returns.

The Company's overall strategy remains unchanged from 2016.

The Company is not subject to externally imposed capital requirements. Operating cash flows are used to maintain and expand operations, as well as to make routine expenditures such as tax and general administrative outgoings.

(b) Financial risk management objectives and policies

The Company's principal financial instruments are cash and cash equivalents and available-for-sale-financial assets. The main purpose of these financial instruments is to provide working capital for operations.

The Company has various other financial assets and liabilities such as receivables and trade payables, which arise directly from its operations. The main risks currently arising from the Company's financial instruments are interest rate risk, credit risk and equity price risks.

(c) Significant accounting policies

Details of the significant accounting policies and methods adopted, including the criteria for recognition, the basis for measurement and the basis on which income and expenses are recognised, in respect of each class of financial asset, financial liability and equity instrument are disclosed in Note 1 to the financial statements.

Financial liabilities		
Trade creditors and other payables	86,573	79,682

(e) Interest rate risk

The cash balance of $548,723 as at 30 June 2017 is sensitive to interest rate risk whereby a 1% per annum movement in interest rates would impact the statement of comprehensive income and equity by $5,487 (2016: $8,787). The following table sets out the carrying amount and maturity of the financial instruments exposed to interest rate risk:

30 June 2017	Time Period	Interest Bearing (Floating)	Non-Interest Bearing	Total Carrying Amount as per the Balance Sheet	Weighted Average Effective Interest Rate %

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2017

19. Financial instruments disclosure (continued)

(f) Credit risk

Credit risk refers to the risk that the counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral where appropriate, as a means of mitigating the risk of financial loss from defaults. The Company only transacts with entities that are rated to the equivalent of investment grade and above. This information is supplied by independent rating agencies where available and, if not available, the Company uses publicly available financial information and its own trading record to rate is major customers.

The Company's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties. Credit exposure is controlled by counterparty limits that are reviewed and approved by the Board annually.

The Company does not have any significant credit risk exposure to any single counterparty or any Company of counterparties having similar characteristics. The credit risk on liquid funds is limited because the counterparties are banks with high credit ratings assigned by international credit rating agencies.

The carrying amount of financial assets recorded in the financial statements, net of any allowances for losses, represents the Company's maximum exposure to credit risk without taking account of the value of any collateral obtained.

(g) Equity price risks

The Group is exposed to equity price risks arising from available-for-sale financial assets. Equity investments are held for strategic rather than trading purposes. The Group does not actively trade these investments. To manage its price risk arising from investments in equity securities, the Group diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Group.

All of the Group's investments are publicly traded. The Group's exposure to equity price risks at balance date is not material and no sensitivity analysis has been performed.

(h) Fair value of financial instruments

AASB 7 Financial Instruments: Disclosures requires disclosure of fair value measurements by level of the following fair value measurement hierarchy:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices) (level 2); and
- Inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

(h) Fair value of financial instruments (continued)

The following table presents the Company's assets and liabilities measured and recognised at fair value:

2017	Level 1 $	Level 2 $	Level 3 $	Total $
Assets				
Available- for sale financial assets	1,610,000	-	-	1,610,000
	1,610,000	-	-	1,610,000

2016	Level 1 $	Level 2 $	Level 3 $	Total $
Assets				
Available- for sale financial assets	1,467,000	-	-	1,467,000
	1,467,000	-	-	1,467,000

The fair value of financial instruments traded in active markets (such as available-for-sale securities) is based on quoted market prices at the end of the reporting period. The quoted market price used for financial assets held by the Company is the current bid price. These instruments are included in level 1.

(i) Liquidity Risk

Ultimate responsibility for liquidity risk management rests with the Board of Directors, who have built an appropriate liquidity risk management framework for the management of the Company's short, medium and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

INDEPENDENT AUDITOR'S REPORT

To the Members of Oakajee Corporation Limited

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of Oakajee Corporation Limited ("the Company") which comprises the statement of financial position as at 30 June 2017, the statement of comprehensive income, the statement of changes in equity and the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of the Company is in accordance with the *Corporations Act 2001*, including:

a) giving a true and fair view of the Company's financial position as at 30 June 2017 and of its financial performance for the year then ended; and

b)

c) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* ("the Code") that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matter	How our audit addressed the key audit matter
Classification, Valuation and Impairment of Investments - Note 9	
This balance represents the largest asset on the Statement of Financial Position, representing 74% of total assets. We have considered this to be a key audit matter due to the importance of the matter to users understanding of the financial report.	Our procedures included but were not limited to; - Considering the classification of the financial assets in accordance with Australian Accounting Standards; - Considering the valuation methodology applied with reference to readily available market data and consideration of impairment indicators; - Re-performing the accounting for the relevant disposals and acquisitions throughout the period; and - Verification of shareholdings.

Information other than the financial report and auditor's report thereon

The directors are responsible for the other information. The other information comprises the information included in the Company's annual report for the year ended 30 June 2017, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

HLB Mann Judd

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.
